

# Step Into Java: Nested Loops

Mr. Neat  
C++

# Nested Loops

- So far we have used a single loop to draw a line
- What if we wanted a box?
- Look at the box like a bunch of lines

# Nested Loops

```
loop(5)
{
    // code to draw a line
    // goto next line
}
```

\*\*\*\*\*

\*\*\*\*\*

\*\*\*\*\*

\*\*\*\*\*

\*\*\*\*\*

A Box!

Any  
questions?
